Room to Read connected me to Ceeds of Peace

- We have donated 80 years of school to Room to Read through our mission to donate one week of school for every pair sold.

Room to Read®

World Change Starts with Educated Children.®

Seeds of Peace Action Plan

- Purpose:
- To build a 9-week mentorship program for girls and non-binary people around the Profile of a Graduate. Each session will teach a skill from the profile list such as: confidence building, can do mindset, transferrable skills like such as communication, adaptability, and collaboration . Designed for girls interested in entrepreneurship and business leadership.

Process

- Meet once a week for 9 weeks
- Meet during lunch time
- 2-3 girls will be picked from each grade by the counselors with the goal of creating a diverse group based on ethnicity, socioeconomic background, and academic scores

Session Agenda

- A speaker shares their 15 minute career/life journey. We play a game while the speaker speaks to reward girls who are listening and getting key points.
 - Goal is for the girls to hear different career paths that are available to them and how women overcame obstacles to reach these career paths.
- Next 45 minutes is an activity that engages all the girls and plays off of the speaker's story and the Profile of a Graduate skill we are teaching that day.

Help?

- Does anyone know an intermediate or high school that may be interested in this program?
 - I'd love to connect! My email is Ashley@mohalaeyewear.com
